

## Safety Manager (Part-Time)

### Position: Safety Manager (Part-Time)

Individual will work with management to build and maintain an industry-best safety culture and program. Position will interact directly with employees and act as a resource to assist in determining how best to perform our work productively without compromising the safety of our team members and all others who may be affected by our activities. It is expected this position will average eight (8) hours per week.

**Reporting/Interaction:** Report to Business Manager with a secondary reporting line to the President. There will be a clear and un-compromised open-door policy with the President. Position will assist and directly interact with all craft and operational positions as well as Project Managers, Sales/Estimators, Dispatch and Human Resources.

### Requirements:

- Manage safety program for contractor working in light to heavy construction and manufacturing environments.
- Working knowledge of, and ability to find, read, analyze and interpret applicable safety requirements from OSHA, MSHA, DOT and professional publications and customer or site-specific documents.
- Proficient in teaching and instructing with excellent interpersonal and communication skills.
- Manage responses and investigations following accidents, incidents, injuries and near-misses.
- Identify and track leading and lagging indicators.
- Computer literate: Microsoft Office Suite with proficiency in Excel.
- Passionate in pursuit of safety performance and behavioral based safety cultures.
- Approachable, open-minded and objective with ability to reason.
- Strong work ethic & sense of responsibility and integrity.
- Able to physically perform the work which includes accessing our project sites and work areas.

### Background:

- Bachelors or Associates degree in safety and 1 to 3 years of relevant experience substantially performing the outlined duties. Alternately, 3 to 5 years relevant experience substantially performing these duties with a combination of equivalent education and/or experience.
- Preferred experiences would be with a construction contractor, or alternately, with a service contractor working within a construction environment.

### Compensation Structure:

- Competitive compensation
- Lodging/stipend as may be appropriate; some limited travel may apply
- Support technologies/electronics (phone, laptop, etc.) – negotiable; can be provided

### About The Company

A&A Machinery Moving, Inc. is a full-service machinery moving and rigging contractor providing a broad scope of services that include turn-key installations, relocations or removals of single machines through entire process lines or plants. Added value provided through crating, skidding, machinery transport, freight forwarding and warehousing. Rigging services include heavy and complex lifting using cranes, gantries, sliders, unified jacking systems and other special equipment as required. Additional capabilities include engineered critical lifts and trans-loading. We service all industries in the Mid-Atlantic region and nationally.
