

Heavy Equipment Mechanic

Position:

Responsible for servicing, maintaining and repairing fleet of equipment including tractors, trailers, trucks, lift trucks, and other specialized lifting, rigging, and transportation equipment.

The heavy equipment mechanic is a cross-craft position. The mechanic will periodically contribute in the field as a rigger/machinery mover. Rigging and machinery moving experience for this position is a plus, but not required. A&A Machinery will provide this additional training, including assisting in obtaining a CDL Class-A license. The position is subject to overtime, which is an essential function per project conditions. Some travel is also required.

Responsibilities:

- Diagnose and repair light, medium and heavy-duty lift trucks, tractors, and trailers including maintenance, inspections and repairs.
- Service, maintain, diagnose and repair hydraulic systems.
- Perform preventive maintenance (PM's) on fleet units including routine technical repairs and completing repair orders.
- Utilize appropriate resources such as manuals, computer, service bulletins and other resources to research problems, determine the most effective and efficient method of repair and locate parts.
- Completely and properly document work and details as necessary with within both the company's systems and in compliance with all governing agencies, state and federal; such as DOT.
- Abide by all policies and safety rules to assist in maintaining the safest, cleanest and most professional work environment possible.
- Support field operations, performing and assisting with rigging and machinery moving functions.
- Ensure compliance to safe trade practices at every step of process.
- Use effective interpersonal skills to maintain positive environment and relationships.
- Ability to physically perform the work.

Background:

- HS diploma
- Technical school certification or advanced degree in diesel engines and/or related field strongly preferred, but will consider relevant experience(s) in lieu of formal training
- Valid driver's license required – CDL-A license preferred, but not required

Compensation Structure:

- Compensation – competitive & negotiable; opportunities for overtime and advancement
- Full benefits package
- Profit sharing
- Safety incentives

About A&A:

A&A Machinery Moving, Inc. is a full-service machinery moving and rigging contractor providing a broad scope of services that include turn-key installations, relocations or removals of single machines through entire process lines or plants. Added-value provided through crating, skidding, machine transport, freight-forwarding and warehousing. Rigging services include heavy and complex lifting using cranes, gantries, sliders, unified jacking systems and other special rigging equipment as required. Additional capabilities include engineered critical lifts and trans-loading. We service all industries in the Mid-Atlantic region and nationally.
