

CDL-A Driver / Rigging Foreman (Machine Mover)

Position:

Combination CDL Class A Driver and Rigger/Machinery Mover position. Training will be provided for rigging and machine moving. CDL-A Driver of flats, drops, tilt-beds, RGN's, curtain-sides, rolling curtains, vans, and more hauling machinery, equipment and rolling stock. Position will include some OS/OW hauling.

Rigging and Machinery Moving involves working on team(s) to move or rig large machinery & equipment using specialized rigging equipment and techniques. Perform millwright and mechanical tasks required to install, assemble, disassemble or relocate machinery and equipment. Subject to overtime which is an essential function of the position per project conditions.

Responsibilities:

- Drive legal and specialized loads (OS/OW) using flats, drops, tilt-beds and other specialized trailers
- Properly and safely secure loads for transit
- Assist with moving large, heavy objects into position, or control movements of machinery or equipment through narrow openings, confined or elevated spaces, or along routes that present technical or logistical challenges
- Ability to learn how to select proper rigging equipment such as slings, shackles, tools, equipment and devices based on calculations of weights, tensions and loads, and center-of-gravity estimates
- Develop knowledge and proper application of rigging tools, equipment and devices on job site
- Visually signal or verbally direct others engaged in hoisting or moving loads for safe movement
- Perform or assist in match-marking, dismantling, erecting, assembling or relocating machinery and equipment
- Use effective interpersonal skills to maintain positive environment and relationships
- Ability to physically perform the work
- Hand tools corresponding with the position

Background:

- CDL Class A license with good driving record and relevant experience (3 years preferred).
- Rigging/machine moving experienced preferred, but not required.
- HS diploma

Compensation Structure:

- Compensation – competitive & negotiable; opportunities for overtime and advancement
- Full benefits package

About A&A:

A&A Machinery Moving, Inc. is a full-service machinery moving and rigging contractor providing a broad scope of services that include turn-key installations, relocations or removals of single machines through entire process lines or plants. Added-value provided through crating, skidding, machine transport, freight-forwarding and warehousing. Rigging services include heavy and complex lifting using cranes, gantries, sliders, unified jacking systems and other special rigging equipment as required. Additional capabilities include engineered critical lifts and trans-loading. We service all industries in the Mid-Atlantic region and nationally.
