

## **Project Manager & Estimator - Rigging / Machine Moving**

### **Position: Project Manager & Estimator**

Estimator/PM combination role to estimate, secure and manage machinery moving and rigging jobs from inception through completion. Must be able to estimate and manage one or more of the following work types:

- Small, short duration machine moving jobs; primarily fork, Versa-Lift or simple crane work
- Mid-size projects installing or relocating multiple items, lines or jobs of moderate complexity and scale
- Larger, long duration projects such as plant installations, relocations or very large lines or machines
- Technical or complex rigging using multiple cranes, combinations of lifting/moving technologies, hydraulic gantries, jack-and-slide, special fixtures, etc.

**Reporting / Interaction:** Report to the President with secondary reporting line to Business Manager. Position directly interacts with other Project Managers, Operations Manager, Sales/Estimators, Dispatch, Human Resources and all craft and operational positions.

### **Requirements / Background:**

- Experience estimating and managing rigging and/or machine moving projects described (4 Years)
- Experience with job costing, general construction accounting and financial responsibility of projects
- Project Scheduling – ability to use scheduling platforms such as MS Project for large projects
- Proficient in reading, understanding and managing basic bid and construction documents including drawings, technical specifications and contract documents. P&ID's and ISO's a plus
- Suitable knowledge including machine assembly, erection, layout, leveling and alignments
- Proficient with MS Office (Word, Excel, PowerPoint, Outlook); CAD or SketchUp experience is helpful but not required
- Education – Required – HS Diploma
- Education – Preferred – BS or AS degree in project management, construction management, engineering or similar technical studies; or alternately an appropriate level of relevant qualifying education, skills and experiences

### **Essential Abilities & Skills:**

- Customer focus, manage relationships, passionate about work, strong sense of responsibility.
- Exceptionally strong interpersonal and management skills; open-minded and approachable.
- Grow, lead, and develop individuals and teams – work as a team and share knowledge.

### **Compensation Structure:**

- Compensation & Bonus – competitive & negotiable
- Allowances: company vehicle, gas card, credit card, cell phone, laptop, health insurance, 401k, profit-sharing, professional development

### **About The Company**

A&A Machinery Moving, Inc. is a full-service machinery moving and rigging contractor providing a broad scope of services that include turn-key installations, relocations or removals of single machines through entire process lines or plants. Added value provided through crating, skidding, machinery transport, freight forwarding and warehousing. Rigging services include heavy and complex lifting using cranes, gantries, sliders, unified jacking systems and other special equipment as required. Additional capabilities include engineered critical lifts and trans-loading. We service all industries in the Mid-Atlantic region and nationally.

**Company Size:** Small to mid-size; \$10M-\$15M, 35-50 employees

**NAICS Code:** 238290
